

FALL HOME PERFORMANCE CHECKLIST

INSPECT YOUR GUTTERS

Regular gutter cleaning helps prevent exterior damage, keeps your basement dry and saves you from making expensive home repairs.

- PROTECT YOUR GUTTERS WITH MESH**
- CLEAN YOUR GUTTERS, IDEALLY IN LATE SUMMER**

SAFETY-CHECK YOUR CHIMNEY

Chimney fires are responsible for millions of dollars in household damage every year, and there are thousands each year in the US alone.

- SURVEY ANY STRUCTURAL DAMAGE**
- FIND ANYTHING BLOCKING THE CHIMNEY**
- MAKE SURE THE DAMPER IS WORKING**

INSULATE YOUR HOME

Home insulation keeps valuable heat in all fall and winter, helping you and your family feel more comfortable.

- SCHEDULE AN ENERGY AUDIT TO LOCATE PROBLEM AREAS**
- HAVE NEW INSULATION INSTALLED IN KEY AREAS LIKE THE ATTIC AND WALLS**

FIND & SEAL AIR LEAKS

Locating and eliminating air leaks reduces drafts and prevents heated air from escaping your home when it's cold out.

- SCHEDULE AN ENERGY AUDIT TO PINPOINT AIR LEAKS**
- HAVE A PROFESSIONAL SEAL AIR LEAKS WITH SPRAY FOAM**

UPDATE YOUR BASEMENT

Making a few basement upgrades now will control moisture and enhance comfort throughout the entire home.

- INSPECT THE BASEMENT DRAINAGE SYSTEM**
- INSTALL A SUMP PUMP IF THERE ISN'T ONE**
- SCHEDULE BASEMENT ENCAPSULATION FOR OPTIMUM MOISTURE CONTROL**

CHECK YOUR WINDOWS

Windows can be a major source of drafts and incoming cold during fall and winter.

- SEAL ANY AIR LEAKS AROUND WINDOW FRAMES**
- CONSIDER REPLACING SINGLE PANE WINDOWS WITH DOUBLE PANE WINDOWS**
